

# CEPEDA Associates, Inc.

**Number:** Q-8

**Revision:** 6/14/2012

**Title:** **INSPECTION SYSTEM REQUIREMENTS**

**Clause:** Unless otherwise specified, the supplier and their sub-tier suppliers may use MIL-I-45208, or the applicable ISO 9000 / ANSI / ASQC Q9000 series standard to develop their inspection system. As a minimum, the supplier shall have an established and documented inspection system that provides adequate control of the material or service to determine that it meets purchase order and specification requirements.

The minimum requirements are outlined in QCP300.2, Supplier Quality Assurance Requirements, paragraph 13.2, item number 7.

For more information refer to [QCP300.2, Supplier Quality Assurance Requirements](#).
